SUMMARY

Developed skills in collaborative, fast-paced technical environment, focusing on coding, debugging, and project management. Demonstrated ability to communicate effectively across teams and adapt to new technologies. Seeking to transition into new field where these transferable skills can drive success and innovation.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, HTML, CSS, React

Back End Frameworks: Node, Express, EJS, RESTFUL API's, Database management (PostgreSQL)

Libraries & Tools: Bootstrap, Postman(API integration) , Version Control(Git, Git Up)

PROJECTS

Student Management System

Sep 2024 – Oct 2024

CRUD Operation Project

- Built an interactive platform using Node.
- PostgreSQL for managing student records
- optimizing system performance by addressing critical crash issues.

Turf Booking Web-Site

Jan 2025 – Feb 2025

User Location Accessing Process

- This project includes user-friendly features like a location API to find nearby turfs and search in other areas.
- Users can log in and sign up with a CRUD-based system.
- We used HTML, CSS, JavaScript, Node, Express, PostgreSQL, RESTful API, and Postman.

Keeper App

Nov 2024 – Dec 2024

Virtual Note with CRUD Features

- In this project, users can create notes with a title and description and delete them when no longer needed. .
- It is built using HTML, CSS, and React.

EXPERIENCE

Front-End Development Intern

Aug 2024 – Sep 2024

UI, UX designing

India, Chennai

- Made a valuable contribution to Codsoft by developing and deploying interactive projects such as a math calculator,landing page,and portfolio site
- with my help,the team enhanced user interface using React,CSS,and JavaScript,improving overall user experience.
- Presented findings at weekly research meetings

EDUCATION

Ramakrishna Mission Vivekananda College

B.Sc in Computer Science

CGPA: 7.6/10

Mylapore, Chennai

Aug 2022 – May 2025

CERTIFICATIONS

- Front-End Development - Codsoft Certification
- Full-Stack Web Development - Udemy
- Secured third place in the mini-project event for our 'Turf Booking' website
